10 years of rich experience in Java-J2EE Development, Designing, Architecture and Automation testing. I am seeking a rewarding and valuable role which will benefit from my skill set and experience. The role should be challenging to achieve new goals, expand my knowledge and enhance my skills.

Niraj Sonawane
Full stack Developer

Mobile: 9022179599

Highlights

- ➢ Expert Understanding of application Architectures, Design patterns & Software development principles.
- ➢ Seasoned DevOps mindset.
- ➢ Expert in Automation testing, building tools and automation release delivery
- ➢ Knowledgeable in web and Application Performance.
- ➢ Excellent problem solving Abilities. Adaptable, Motivated Team player
- ➢ Expert in Agile Development Methodologies (Scrum, Kanban, Safe)

Experience

Position :Assistant Vice President

*Company: **Deutsche bank***   *August 2015 – Present*

Developed and Managed US Fed regulated CCAR annual and quarterly reporting framework for risk platform.

- ➢ Created highly scalable Batch application framework to perform Stress calculations for 5 Million trades.
- ➢ Implementation of In-memory data girds using Hazelcast.
- ➢ Designed the framework that collects, stores and distributes error information about the run and stress calculations to relevant stakeholders.
- ➢ Automated the process to override stress data for some business use cases with four eye principle.
- ➢ Automated the database testing using DBfit.
- ➢ Implement Job – orchestration for running job as per configuration at run time.
- ➢ Front to back integration of the platform with various bank functions.
- ➢ Identify and Plan refactoring opportunities in existing codebase.
- ➢ Automated the batch deployment process using Team city.
- ➢ Configure Team City for Continues integration.
- ➢ Configure tools like Sonar, FishEye Crucible for highest code quality.

Education

Bachelor of engineering - IT
Pune University,   *2008*

Higher School Certificate H.S.C
Maharashtra State Board   *2004*

Secondary School Certificate H.S.C
Maharashtra State Board   *2002*

Technical Skills

Java: Core Java, J2EE, Java 8, 9 & 10, Junit

Spring: Spring Core, JDBC, JMS, AOP, MVC Batch, REST, Test, Boot

Streaming Technologies: Apache ActiveMQ, Reactive Streams RXJava 2

Automation Testing: Cucumber, Fitnesse, Selenium & DBFit

Database: Oracle & MySql.

UI Technologies: Struts 2, Angular5

Tools and Servers: Team City, Jenkins, Apache Tomcat, Sonar, Control-M, Git, SVN

Others: Kotlin, Android

Experience

Position :Tech Lead

*Company: **Barclays***   *August 2012 – August 2015*

Develop Unified Contact tracking System [UCT]

- Create scalable Event Driven Framework to capture User interaction.
- Designed and implemented a distributed event notification system using MQ Series and JMS
- Automate Business processes for certain events.
- Identify and Plan refactoring opportunities in existing codebase.
- Reduce the technical debt by converting common functions to Events.
- Create Framework to Capture All user interactions of customers in one centralize location.
- Participated in different technical huddles to represent UCT.
- On Boarded Cucumber BDD framework to automate testing of existing API.

Position :Software Developer

*Company: **BNP Paribas***   *June 2011 – August 2012*

Worked as Developer for various BNP projects.

- Understand & Implement the requirements.
- Write Junit test cases.

Position :Junior Developer

*Company: **Capgemini***   *November 2008 – June 2011*

Worked as Developer for various Capgemini projects.

- Understand & Implement the requirements.
- Write Junit test cases.

Technical Certifications

- Sun Certified Java Programmer for JDK 1.5. (SCJP)
- Sun Certified Web Component Developer Enterprise Edition 5 (SCWCD)
- IBM SOA Fundamentals

Awards and Recognitions

- Spot award in Deutsche Bank Q2-2017
- Spot award in Deutsche Bank Q1-2016
- Outstanding Contribution Award in Barclays 2015
- Project Star Award in Capgemini 2009
